

*Erysimum* 'Cotswold Gem'

'Cotswold Gem' is one of a number of *erysimums* with variegated leaves (others include *E. 'Stars and Stripes'* and *E. linifolium variegatum*). It has an upright, sub-shrubby habit and has narrow, serrated leaves, edged with cream. The flowers, which are held on long racemes, open tan and age to mauve. It has been quite popular over recent years and is readily available.
